EDUCATION

Gogte Institute of Technology
Bachelor of Engineering in Computer Science
CGPA : 9.4 (upto 4th Semester)

Belgaum, Karnataka, India
Dec 2020 – Aug 2024

PROJECTS

CINEFLICKS (MOVIE/SERIES APP)

[Website Link](#)

- Many youngsters when bored start browsing for good series or movies and end up surfing with messy recommendations.
- So, I have built an app which gives the basic info of the trending movies or series, its cast and even an option to watch its trailer.
- Every time the user opens the app, the MoviesDB API endpoint is hit and then the requested data from that API is neatly structured with the help of React.js framework and then presented in front of the user.
- Tech Stack:** React.js, API, Material UI, Tailwind CSS

EXPERIO (EXPERIENCE SHARING APP)

[Website Link](#)

- This is a team project of 4 members, this app is a User Generated Website where user himself will build this app by sharing his/her experience in any category through blogs.
- This app is basically a full-fledge website with both frontend and backend technology (MERN STACK) .
- I have coded both the frontend and the backend part of the app regarding the user creating, updating, reading and deleting the posts.
- Tech Stack:** React.js, Node.js, Express, MongoDB

AI PLAYGROUND APP

[Website Link](#)

- This is a team project of 3 members, this app provides variety of AI options through which users can get a better understanding of how AI can do amazing things.
- ChatGPT is designed to mimic human conversation and can provide a better understanding of how AI can interact with humans.
- Using our image generator, users can create images based on text inputs.
- Our black and white image converter uses AI to enhance and colorize old photos, breathing new life into them.
- Our automatic programming memes generator uses AI to generate humorous programming-related memes.
- Tech Stack:** React.js, OpenAI API, Rapid API
